Madeeha

Responsive Vcard Template

OVERVIEW

Hey, thank you for purchasing Madeeha Vcard Template. If you have any questions, please don't hesitate to contact me: : qubit.nanotechnology@gmail.com.

This is a awesome and clean single page template designed with bright and fresh color. You can just play with the colors to get the right design of your choice. It has lots of features like Jquery slider portfolio, twitter feed, sticky navigation to get the mian navigation on every section.

I hope you like and appreciate it. Please rate it if you like.

Created on: 26/05/12.

HTML

Madeeha

Here you can see the general HTML structure:

```html
<body>
  <header>
      <div class="row">
          <div class="row">
              <div class="grid_3">
                  <div id="photo">
                      <img src="images/my_photo.png" alt="My Photo">
                  </div>
              </div>
              <div class="grid_9">
                  <div class="name-wrap">
                      <h1>Jeff Fashkin <span>Front end developer</span
                  </div>
                  <div class="contact-info"> <span class="phone-icon":
icon"><a href="#">mail@site.com</a></span>

              </div>

          </div>

      </div>
  </div>
  </header>
  <div class="row">
      <div class="social-icons">
          <ul>
              <li class="twitter"><a href="#">Twitter</a></li>
              <li class="facebook"><a href="#">Twitter</a></li>
              <li class="vimeo"><a href="#">Twitter</a></li>
              <li class="buzz"><a href="#">Twitter</a></li>
              <li class="dribble"><a href="#">Twitter</a></li>
          </ul>
      </div>
  </div>
  <div id="tab-container" class='tab-container'>
      <ul class='etabs'>
          <li class='tab'><a href="#home" class="home">Home</a></li>
          <li class='tab'><a href="#web" class="about">Profile</a></l
          <li class='tab'><a href="#about" class="social">Portfolio</a
          <li class='tab'><a href="#contact" class="contact">Contact<,
      </ul>
```

Madeeha

CSS

All the CSS files are in the "css"folder. Madeeha Vcard Template has a main CSS file called "layout.css".

 Here is the summary:

Madeeha

JS

The JavaScripts folder is "js". Inside it, their are all the necessary javascript files for Madeeha Vcard Template.

Madeeha

To configure all the plugins and custom scripts, Madeeha Vcard Template use the "**custom.js**" file.

 NOTE: There are still some js files not noted above. I did not include them because you don't have to modify them. The "**custom.js**" is enough to make the changes you need.
